Časopis Bosniaca sadržajno obrađuje niz aktuelnih tema iz domena bibliotečko-informacijskog sistema, dokumentarnog naslijeđa, informacija i servisa u novom tehnološkom okruženju. Ovo izdanje obuhvata 11 naučnih i stručnih članaka te dva prikaza koji sa stanovišta kvaliteta, naučne i stručne relevantnosti u potpunosti zadovoljavaju kriterije neophodne za publikovanje rada u našem časopisu.

Prvi tematski blok o bibliotečko-informacijskim sistemima otvaramo radom autorica Ane Barbarić i Anite Katulić pod nazivom "Važnost pismenosti iz privatnosti u preovladavanju digitalnog jaza s naglaskom na ulogu knjižnica", a u narednom radu autorica Slobodanka Ključanin donosi "Prijedlog modela baze podataka za evidentiranje karata i kartografske građe samostana Duha Svetoga u Fojnici". Blok nastavljamo radom autorica Andreje Zubac i Ane Barbarić pod nazivom "Utjecaj narodne knjižnice na kvalitetu života nezaposlenih građana", te radom "Metafizika biblioteke" autorice Emire Kulenović. O katalogizaciji u publikaciji (CIP) u Narodnoj biblioteci Srbije piše autorica Nataša Simić.

U drugom tematskom bloku Dokumentarno naslijeđe između ostalog donosimo zanimljivu priču o Otvaranju i radu muslimanskih čitaonica u manjim mjestima Bosne i Hercegovine početkom 20. stoljeća autorice Hane Younis. Rad uposlenika NUBBiH i Mehmeda Kardaša o Poljičkim ispravama, dokumentima iz arhiva Poljičke republike pisanim bosančicom, koji se nalaze u Specijalnim zbirkama, daju sliku koja svjedoči o prošlosti naše zemlje i naroda koji u njoj živi. U nastavku ove tematske cjeline je rad autorice Vesne Živković koja nam predstavlja povijesni prikaz uništenja Univerzitetske biblioteke u Luvenu u Prvom svjetskom ratu. Blok završavamo radom o značaju bibliografija i bibliografa u radu Orijentalnog instituta u Sarajevu autorice Lamije Hatibović.

Želeći da što bolje pratimo zanimljive teme iz svijeta modernog savremenog bibliotekarstva, u bloku Informacije i servisi u novom tehnološkom okruženju donosimo radove koji će zasigurno privući vašu pažnju. Predstavljamo rad o poslovanju u visokoškolskim bibliotekama u Federaciji Bosne i Hercegovine za vrijeme pandemije COVID-19 autorica Lejle Hajdarpašić, Senade Dizdar i Džejele Khatab. U ovom bloku nastavljamo s temom iz prošlog broja o grabežljivim izdavačima, autora Alexandru-Ionuța Petrișora, čiji je rad usmjeren na izlaganje

sent a paper on business activities in Academic libraries in the Federation of Bosnia and Herzegovina during the COVID-19 pandemic by authors Lejla Hajdarpašić, Senada Dizdar and Džejla Khatab. In this block, we continue with a topic from a previous issue on predatory publishers, by author Alexandru-Ionuț Petrișor, whose work focuses on exposing the most extreme predatory strategies, trying to point out the difference between genuine and predatory journals and how to recognize the basic characteristics of poor journals.

The issue ends with two book reviews. Senada Dizdar presents a publication by author Lejla Kodrić Zaimović entitled *Heritage Studies* (NULBIH 2021). The second work is presented to our readers by Valerijan Žujo. The book *They've killed our Ferdinand*, by authors Martin Ježek and Pavel Trojan, is a contribution to the long and fragmented history of Czech-South Slavic relations (NULBIH 2021).

We believe that this time you will also find an interesting material to read.

Respectfully,

Ismet Ovčina, PhD
